IMPACT OF SCIENCE ON SOCIETY, 1987

Subject index

Agricultural innovations
The Economic and legal dimensions of invention. Macioti, Manfredo. (147) p. 213-221.

Agriculture
The Influence of information technology on the economic and cultural life of Soviet Central Asia. Aïtmatov, Chinghiz Torekulovich. (146) p. 183-187.

Architecture
Earthquake-proof construction and architecture. Arya, Anand S. (145) p. 75-87, illus.

Artificial intelligence
Fifth-generation computer systems and their impact on society. Doi, Norihisa. Furukawa, Koichi. Fuchi, Kazuhiro. (146) p. 161-170, illus.
The Twenty-first century corporation. Smith, Roger B. (146) p. 177-182.

Biogas
Energizing an Indian village. Ghaswala, S.K. (148) p. 403-411, illus., map.
Energy from biomass. DaSilva, Edgar J. Carioca, J.O.B. PannirSelvan, P.V. Aroro, H.L. (148) p. 302-315.
New and renewable sources of energy. (148) p. 301-411, illus., map.

Biomass
Energizing an Indian village. Ghaswala, S.K. (148) p. 403-411, illus., map.
Energy from biomass. DaSilva, Edgar J. Carioca, J.O.B. PannirSelvan, P.V. Aroro, H.L. (148) p. 302-315.

Biotechnology
Inventions and the developing countries. Goonatilake, Susantha. (147) p. 223-231.

Bridges
Inventions spurned: on bridges and the impact of society on technology. Petroski, Henry. (147) p. 251-259, illus.

Britannia Bridge (UK)
Inventions spurned: on bridges and the impact of society on technology. Petroski, Henry. (147) p. 251-259, illus.

Building design
Earthquake-proof construction and architecture. Arya, Anand S. (145) p. 75-87, illus.

Building materials
Earthquake-proof construction and architecture. Arya, Anand S. (145) p. 75-87, illus.

Bulgaria
Education for an information age. Sendov, Blagovest. (146) p. 193-201, illus.

CAD/CAM Systems
Computer-aided design: a powerful tool at the disposal of the designer. Sequeira, Jean. (146) p. 133-138, illus.
Robots: their present-day use and prospects for the future. Filemon, Elisabeth. (146) p. 149-160, illus.

Canada
Submarine exploration and the tale of SAGA. Richardson, Jacques. (147) p. 277-286, illus.

Cancer
Research on palm oil. Parameswaran, Ponnudurai. (147) p. 287-294, illus.

Cape Verde
Wind energy: a maturing power supply possibility. Petersen, Erik Lundtang. Frandsen, Sten. Troen, Ib. Hansen, Jens Carsten. (148) p. 351-361, illus.

Cardiovascular diseases
Research on palm oil. Parameswaran, Ponnudurai. (147) p. 287-294, illus.

CD-ROM: Compact Disc Read Only Memory
The Technical database: storage, recovery and utilization of industrial and engineering data. Blackburn, David A. (146) p. 123-131.

Central Asian cultures
The Influence of information technology on the economic and cultural life of Soviet Central Asia. Aïtmatov, Chinghiz Torekulovich. (146) p. 183-187.

China
The Growing influence of microelectronics and computer technology in China. Liu Fengqiao. (146) p. 189-192.
Small hydropower in China. Li Giufen. Gao Jizhang. (148) p. 363-374, illus.

Chinese
The Growing influence of microelectronics and computer technology in China. Liu Fengqiao. (146) p. 189-192.

Choice of technology
Inventions and the developing countries. Goonatilake, Susantha. (147) p. 223-231.
Inventions spurned: on bridges and the impact of society on technology. Petroski, Henry. (147) p. 251-259, illus.

Civil engineering
Inventions spurned: on bridges and the impact of society on technology. Petroski, Henry. (147) p. 251-259, illus.

Civilization
Volcanoes and men. Jaupart, Claude. (145) p. 55-61, illus., map.

Comex (France)
Submarine exploration and the tale of SAGA. Richardson, Jacques. (147) p. 277-286, illus.
Communication systems
The Third industrial revolution: an economic overview. Khan, Rahat Nabi. (146) p. 115-122.
The Twenty-first century corporation. Smith, Roger B. (146) p. 177-182.
Computer aided design
Computer-aided design: a powerful tool at the disposal of the designer. Sequeira, Jean. (146) p. 133-138, illus.
Mechanics, electronics and computer science: their integration in manufacturing. Rebaglia, Bruno. Sartori, Sergio. (146) p. 139-147.
The Third industrial revolution: an economic overview. Khan, Rahat Nabi. (146) p. 115-122.
Computer applications
Computer-aided design: a powerful tool at the disposal of the designer. Sequeira, Jean. (146) p. 133-138, illus.
The Engineer and the modern technological revolution. Boutzev, Christo. (146) p. 171-175, illus.
Fifth-generation computer systems and their impact on society. Doi, Norihisa. Furukawa, Koichi. Fuchi, Kazuhiro. (146) p. 161-170, illus.
Inventions and society. (147) p. 209-294, illus.
Mechanics, electronics and computer science: their integration in manufacturing. Rebaglia, Bruno. Sartori, Sergio. (146) p. 139-147.
The Third industrial revolution: an economic overview. Khan, Rahat Nabi. (146) p. 115-122.
Will the 'piano' of the year 2000 be intelligent? Some reflections on computer music research. Bloch, Georges. (147) p. 269-276.
Computer assisted instruction
Education for an information age. Sendov, Blagovest. (146) p. 193-201, illus.
The Influence of information technology on the economic and cultural life of Soviet Central Asia. Aïtmatov, Chinghiz Torekulovich. (146) p. 183-187.
Computer graphics
Computer-aided design: a powerful tool at the disposal of the designer. Sequeira, Jean. (146) p. 133-138, illus.
Computer literacy
Education for an information age. Sendov, Blagovest. (146) p. 193-201, illus.
Computer networks
The Intergovernmental Informatics Programme. Danzin, André. (146) p. 109-113.
Computer programming
Will the 'piano' of the year 2000 be intelligent? Some reflections on computer music research. Bloch, Georges. (147) p. 269-276.
Computer science
Mechanics, electronics and computer science: their integration in manufacturing. Rebaglia, Bruno. Sartori, Sergio. (146) p. 139-147.
The Third industrial revolution. (146) p. 109-201, illus.
Computer software
The Growing influence of microelectronics and computer technology in China. Liu Fengqiao. (146) p. 189-192.
Computers
Fifth-generation computer systems and their impact on society. Doi, Norihisa. Furukawa, Koichi. Fuchi, Kazuhiro. (146) p. 161-170, illus.
The Growing influence of microelectronics and computer technology in China. Liu Fengqiao. (146) p. 189-192.
Continental drift
Plate tectonics: a framework for understanding our living planet. Achache, José. (145) p. 5-19, illus., maps.
Continental shelf
Continental growth and collision, and mineral prospection in Southeast Asia. Hutchison, Charles S. (145) p. 33-44, illus., maps.
Deep continental drilling on the Kola Peninsula and the structure of the earth's crust. Kuznetsov, Oleg L. (145) p. 89-96.
Copyright
The Economic and legal dimensions of invention. Macioti, Manfredo. (147) p. 213-221.
The Technical database: storage, recovery and utilization of industrial and engineering data. Blackburn, David A. (146) p. 123-131.
Council for Mutual Economic Ass'stance
Inventions and the planned management of a national economy. Bělohlávek, Miroslav. (147) p. 241-250, illus.
Cultural life
The Influence of information technology on the economic and cultural life of Soviet Central Asia. Aïtmatov, Chinghiz Torekulovich. (146) p. 183-187.
Curriculum development
Education for an information age. Sendov, Blagovest. (146) p. 193-201, illus.
Czechoslovakia
Inventions and the planned management of a national economy. Bělohlávek, Miroslav. (147) p. 241-250, illus.
Dams
Small hydropower in China. Li Giufen. Gao Jizhang. (148) p. 363-374, illus.
Data bases
The Technical database: storage, recovery and utilization of industrial and engineering data. Blackburn, David A. (146) p. 123-131.
Developing countries
Inventions and society. (147) p. 209-294, illus.
Inventions and the developing countries. Goonatilake, Susantha. (147) p. 223-231.
The Third industrial revolution. (146) p. 109-201, illus.
The Third industrial revolution: an economic overview. Khan, Rahat Nabi. (146) p. 115-122.
Wind energy: a maturing power supply possibility. Petersen, Erik Lundtang. Frandsen, Sten. Troen, Ib. Hansen, Jens Carsten. (148) p. 351-361, illus.

Diving equipment
Submarine exploration and the tale of SAGA. Richardson, Jacques. (147) p. 277-286, illus.
Drilling
Deep continental drilling on the Kola Peninsula and the structure of the earth's crust. Kuznetsov, Oleg L. (145) p. 89-96.
Earth sciences
The Living planet: putting our knowledge of plate tectonics to work. (145) p. 1-103, illus., maps.
Earthquake engineering
Earthquake-proof construction and architecture. Arya, Anand S. (145) p. 75-87, illus.
Earthquake protection
Earthquake-proof construction and architecture. Arya, Anand S. (145) p. 75-87, illus.
Earthquakes
Plate tectonics: a framework for understanding our living planet. Achache, José. (145) p. 5-19, illus., maps.
Seismicity of Japan: earthquakes and tsunamis. Abe, Katsuyuki. (145) p. 63-74, illus., maps.
Earth's crust
Deep continental drilling on the Kola Peninsula and the structure of the earth's crust. Kuznetsov, Oleg L. (145) p. 89-96.
Educational experiments
Education for an information age. Sendov, Blagovest. (146) p. 193-201, illus.
Education for an information age. Sendov, Blagovest. (146) p. 193-201, illus.
Educational systems
Education for an information age. Sendov, Blagovest. (146) p. 193-201, illus.
Electric power generation
Ocean thermal energy. Berkovsky, Boris M. (148) p. 387-392, illus.
Solar electricity. Alferov, Zhores. (148) p. 331-336.
Tidal energy. (148) p. 375-385, illus.
Electricity
World geothermal development: the present situation and opportunities for the future. Cataldi, Raffaele. (148) p. 337-350, illus.
Electronic engineering
Mechanics, electronics and computer science: their integration in manufacturing. Rebaglia, Bruno. Sartori, Sergio. (146) p. 139-147.
Energy conservation
Solar electricity. Alferov, Zhores. (148) p. 331-336.
Energy consumption
Making use of the heat of the Sun. Moore, Howard J. (148) p. 317-329, illus.
Wind energy: a maturing power supply possibility. Petersen, Erik Lundtang. Frandsen, Sten. Troen, Ib. Hansen, Jens Carsten. (148) p. 351-361, illus.
Energy conversion
Energy from biomass. DaSilva, Edgar J. Carioca, J.O.B. PannirSelvan, P.V. Aroro, H.L. (148) p. 302-315.
Making use of the heat of the Sun. Moore, Howard J. (148) p. 317-329, illus.
Ocean thermal energy. Berkovsky, Boris M. (148) p. 387-392, illus.
Salinity energy. Schmitt, Walter R. (148) p. 393-402, illus.
Energy resources
Energizing an Indian village. Ghaswala, S.K. (148) p. 403-411, illus., map.
Energy from biomass. DaSilva, Edgar J. Carioca, J.O.B. PannirSelvan, P.V. Aroro, H.L. (148) p. 302-315.
Heat flow of the earth and geothermal resources. Hamza, Valiya M. (145) p. 21-32, illus., map.
New and renewable sources of energy. (148) p. 301-411, illus., map.
Research on palm oil. Parameswaran, Ponnudurai. (147) p. 287-294, illus.
Salinity energy. Schmitt, Walter R. (148) p. 393-402, illus.
Tidal energy. (148) p. 375-385, illus.
Wind energy: a maturing power supply possibility. Petersen, Erik Lundtang. Frandsen, Sten. Troen, Ib. Hansen, Jens Carsten. (148) p. 351-361, illus.
Energy supply
Making use of the heat of the Sun. Moore, Howard J. (148) p. 317-329, illus.
Wind energy: a maturing power supply possibility. Petersen, Erik Lundtang. Frandsen, Sten. Troen, Ib. Hansen, Jens Carsten. (148) p. 351-361, illus.
Energy utilization
World geothermal development: the present situation and opportunities for the future. Cataldi, Raffaele. (148) p. 337-350, illus.
Engineering education
The Engineer and the modern technological revolution. Boutzev, Christo. (146) p. 171-175, illus.
Engineers
The Engineer and the modern technological revolution. Boutzev, Christo. (146) p. 171-175, illus.
Environmental changes
Salinity energy. Schmitt, Walter R. (148) p. 393-402, illus.
Tidal energy. (148) p. 375-385, illus.
Ethics of science
Inventions and society. (147) p. 209-294, illus.
The Socio-ethical dimension of invention. Bendzsel, Miklós. Kiss, István. (147) p. 233-240.
Feasibility studies
Tidal energy. (148) p. 375-385, illus.
FGCS: Fifth-Generation Computer Systems
Fifth-generation computer systems and their impact on society. Doi, Norihisa. Furukawa, Koichi. Fuchi, Kazuhiro. (146) p. 161-170, illus.
Film industry
The Influence of information technology on the economic and cultural life of Soviet Central Asia. Aïtmatov, Chinghiz Torekulovich. (146) p. 183-187.
France
Submarine exploration and the tale of SAGA. Richardson, Jacques. (147) p. 277-286, illus.

Fuels
Research on palm oil. Parameswaran, Ponnudurai. (147) p. 287-294, illus.
Geological survey
Deep continental drilling on the Kola Peninsula and the structure of the earth's crust. Kuznetsov, Oleg L. (145) p. 89-96.
Geology
The Living planet: putting our knowledge of plate tectonics to work. (145) p. 1-103, illus., maps.
Geophysics
Deep continental drilling on the Kola Peninsula and the structure of the earth's crust. Kuznetsov, Oleg L. (145) p. 89-96.
The Living planet: putting our knowledge of plate tectonics to work. (145) p. 1-103, illus., maps.
Geothermal energy
Heat flow of the earth and geothermal resources. Hamza, Valiya M. (145) p. 21-32, illus., map.
New and renewable sources of energy. (148) p. 301-411, illus., map.
World geothermal development: the present situation and opportunities for the future. Cataldi, Raffaele. (148) p. 337-350, illus.
Housing construction
Making use of the heat of the Sun. Moore, Howard J. (148) p. 317-329, illus.
Human nature
Volcanoes and men. Jaupart, Claude. (145) p. 55-61, illus., map.
Hydrocarbons
Heat flow of the earth and geothermal resources. Hamza, Valiya M. (145) p. 21-32, illus., map.
Sedimentary basins, plate tectonics and oil fields. Sellwood, Bruce. (145) p. 45-53, illus., map.
Hydroelectric power
New and renewable sources of energy. (148) p. 301-411, illus., map.
Hydroelectric power stations
Small hydropower in China. Li Giufen. Gao Jizhang. (148) p. 363-374, illus.
India
Energizing an Indian village. Ghaswala, S.K. (148) p. 403-411, illus., map.
New and renewable sources of energy. (148) p. 301-411, illus., map.
Industrial design
Mechanics, electronics and computer science: their integration in manufacturing. Rebaglia, Bruno. Sartori, Sergio. (146) p. 139-147.
Industrial production
Robots: their present-day use and prospects for the future. Filemon, Elisabeth. (146) p. 149-160, illus.
The Twenty-first century corporation. Smith, Roger B. (146) p. 177-182.
Informatics
Education for an information age. Sendov, Blagovest. (146) p. 193-201, illus.
The Intergovernmental Informatics Programme. Danzin, André. (146) p. 109-113.
The Third industrial revolution. (146) p. 109-201, illus.
Informatics and development
The Intergovernmental Informatics Programme. Danzin, André. (146) p. 109-113.
The Third industrial revolution. (146) p. 109-201, illus.
Information and development
The Intergovernmental Informatics Programme. Danzin, André. (146) p. 109-113.
The Third industrial revolution. (146) p. 109-201, illus.
Information processing
The Growing influence of microelectronics and computer technology in China. Liu Fengqiao. (146) p. 189-192.
Information retrieval
The Technical database: storage, recovery and utilization of industrial and engineering data. Blackburn, David A. (146) p. 123-131.
Information science
The Intergovernmental Informatics Programme. Danzin, André. (146) p. 109-113.
Information technology
The Influence of information technology on the economic and cultural life of Soviet Central Asia. Aïtmatov, Chinghiz Torekulovich. (146) p. 183-187.
The Intergovernmental Informatics Programme. Danzin, André. (146) p. 109-113.
Inventions and the developing countries. Goonatilake, Susantha. (147) p. 223-231.
The Third industrial revolution. (146) p. 109-201, illus.
The Third industrial revolution: an economic overview. Khan, Rahat Nabi. (146) p. 115-122.
Innovation behaviour
Inventions and society. (147) p. 209-294, illus.
Inventions spurned: on bridges and the impact of society on technology. Petroski, Henry. (147) p. 251-259, illus.
The Socio-ethical dimension of invention. Bendzsel, Miklós. Kiss, István. (147) p. 233-240.
Institut français de recherche pour l'exploitation de la mer
Submarine exploration and the tale of SAGA. Richardson, Jacques. (147) p. 277-286, illus.
Integrated Rural Energy Centre (India)
Energizing an Indian village. Ghaswala, S.K. (148) p. 403-411, illus., map.
Intellectual property
The Economic and legal dimensions of invention. Macioti, Manfredo. (147) p. 213-221.
Inventions and society. (147) p. 209-294, illus.
Intergovernmental Informatics Programme
The Intergovernmental Informatics Programme. Danzin, André. (146) p. 109-113.
International instruments
The Economic and legal dimensions of invention. Macioti, Manfredo. (147) p. 213-221.
Inventions
The Economic and legal dimensions of invention. Macioti, Manfredo. (147) p. 213-221.

Inventions and society. (147) p. 209-294, illus.
Inventions and the developing countries. Goonatilake, Susantha. (147) p. 223-231.
Inventions and the planned management of a national economy. Belohlávek, Miroslav. (147) p. 241-250, illus.
Inventions spurned: on bridges and the impact of society on technology. Petroski, Henry. (147) p. 251-259, illus.
Music by proxy: the invention and evolution of mechanical music. Pearsall, Ronald. (147) p. 261-267, illus.
The Socio-ethical dimension of invention. Bendzsel, Miklós. Kiss, István. (147) p. 233-240.
Submarine exploration and the tale of SAGA. Richardson, Jacques. (147) p. 277-286, illus.
Will the 'piano' of the year 2000 be intelligent? Some reflections on computer music research. Bloch, Georges. (147) p. 269-276.

Iron Bridge (UK)
Inventions spurned: on bridges and the impact of society on technology. Petroski, Henry. (147) p. 251-259, illus.

Japan
Fifth-generation computer systems and their impact on society. Doi, Norihisa. Furukawa, Koichi. Fuchi, Kazuhiro. (146) p. 161-170, illus.
Seismicity of Japan: earthquakes and tsunamis. Abe, Katsuyuki. (145) p. 63-74, illus., maps.

Khandia (India)
Energizing an Indian village. Ghaswala, S.K. (148) p. 403-411, illus., map.

Malaysia
Research on palm oil. Parameswaran, Ponnudurai. (147) p. 287-294, illus.

Man-machine systems
Computer-aided design: a powerful tool at the disposal of the designer. Sequeira, Jean. (146) p. 133-138, illus.
The Engineer and the modern technological revolution. Boutzev, Christo. (146) p. 171-175, illus.

Manufacturing industries
Mechanics, electronics and computer science: their integration in manufacturing. Rebaglia, Bruno. Sartori, Sergio. (146) p. 139-147.
Robots: their present-day use and prospects for the future. Filemon, Elisabeth. (146) p. 149-160, illus.

Mechanics
Mechanics, electronics and computer science: their integration in manufacturing. Rebaglia, Bruno. Sartori, Sergio. (146) p. 139-147.

Mechanization
Music by proxy: the invention and evolution of mechanical music. Pearsall, Ronald. (147) p. 261-267, illus.

Medicinal plants
Research on palm oil. Parameswaran, Ponnudurai. (147) p. 287-294, illus.

Microcomputers
The Growing influence of microelectronics and computer technology in China. Liu Fengqiao. (146) p. 189-192.
The Technical database: storage, recovery and utilization of industrial and engineering data. Blackburn, David A. (146) p. 123-131.
The Third industrial revolution: an economic overview. Khan, Rahat Nabi. (146) p. 115-122.

MIDI: Musical Instrument Digital Interface
Will the 'piano' of the year 2000 be intelligent? Some reflections on computer music research. Bloch, Georges. (147) p. 269-276.

Mineral deposits
Continental growth and collision, and mineral prospection in Southeast Asia. Hutchison, Charles S. (145) p. 33-44, illus., maps.

Mineral resources
Heat flow of the earth and geothermal resources. Hamza, Valiya M. (145) p. 21-32, illus., map.
Plate tectonics: a framework for understanding our living planet. Achache, José. (145) p. 5-19, illus., maps.

Minerals
Deep continental drilling on the Kola Peninsula and the structure of the earth's crust. Kuznetsov, Oleg L. (145) p. 89-96.

Music
Inventions and society. (147) p. 209-294, illus.
Will the 'piano' of the year 2000 be intelligent? Some reflections on computer music research. Bloch, Georges. (147) p. 269-276.

Musical instruments
Music by proxy: the invention and evolution of mechanical music. Pearsall, Ronald. (147) p. 261-267, illus.
Will the 'piano' of the year 2000 be intelligent? Some reflections on computer music research. Bloch, Georges. (147) p. 269-276.

New technologies
The Economic and legal dimensions of invention. Macioti, Manfredo. (147) p. 213-221.
The Engineer and the modern technological revolution. Boutzev, Christo. (146) p. 171-175, illus.
The Influence of information technology on the economic and cultural life of Soviet Central Asia. Aïtmatov, Chinghiz Torekulovich. (146) p. 183-187.
Inventions and society. (147) p. 209-294, illus.
Inventions and the developing countries. Goonatilake, Susantha. (147) p. 223-231.
The Socio-ethical dimension of invention. Bendzsel, Miklós. Kiss, István. (147) p. 233-240.
The Third industrial revolution. (146) p. 109-201, illus.
The Third industrial revolution: an economic overview. Khan, Rahat Nabi. (146) p. 115-122.

Ocean exploration
Submarine exploration and the tale of SAGA. Richardson, Jacques. (147) p. 277-286, illus.

Oceans
New and renewable sources of energy. (148) p. 301-411, illus., map.
Ocean thermal energy. Berkovsky, Boris M. (148) p. 387-392, illus.

Office management
The Twenty-first century corporation. Smith, Roger B. (146) p. 177-182.
Oil resources
Sedimentary basins, plate tectonics and oil fields. Sellwood, Bruce. (145) p. 45-53, illus., map.
On-line searching
The Technical database: storage, recovery and utilization of industrial and engineering data. Blackburn, David A. (146) p. 123-131.
Palm oil
Research on palm oil. Parameswaran, Ponnudurai. (147) p. 287-294, illus.
Palm Oil Research Institute of Malaysia
Research on palm oil. Parameswaran, Ponnudurai. (147) p. 287-294, illus.
Patents
The Economic and legal dimensions of invention. Macioti, Manfredo. (147) p. 213-221.
Inventions and society. (147) p. 209-294, illus.
Inventions and the developing countries. Goonatilake, Susantha. (147) p. 223-231.
Inventions and the planned management of a national economy. Bělohlávek, Miroslav. (147) p. 241-250, illus.
Photocells
Solar electricity. Alferov, Zhores. (148) p. 331-336.
Planned economy
Inventions and the planned management of a national economy. Bělohlávek, Miroslav. (147) p. 241-250, illus.
Preventive medicine
Research on palm oil. Parameswaran, Ponnudurai. (147) p. 287-294, illus.
Printing
The Economic and legal dimensions of invention. Macioti, Manfredo. (147) p. 213-221.
Problem solving
Fifth-generation computer systems and their impact on society. Doi, Norihisa. Furukawa, Koichi. Fuchi, Kazuhiro. (146) p. 161-170, illus.
Publishing
The Technical database: storage, recovery and utilization of industrial and engineering data. Blackburn, David A. (146) p. 123-131.
Renewable resources
Energizing an Indian village. Ghaswala, S.K. (148) p. 403-411, illus., map.
New and renewable sources of energy. (148) p. 301-411, illus., map.
Research and development
Fifth-generation computer systems and their impact on society. Doi, Norihisa. Furukawa, Koichi. Fuchi, Kazuhiro. (146) p. 161-170, illus.
Research on palm oil. Parameswaran, Ponnudurai. (147) p. 287-294, illus.
Research Group on Education (Bulgaria)
Education for an information age. Sendov, Blagovest. (146) p. 193-201, illus.
Resource exploration
Continental growth and collision, and mineral prospection in Southeast Asia. Hutchison, Charles S. (145) p. 33-44, illus., maps.
Robotics
Education for an information age. Sendov, Blagovest. (146) p. 193-201, illus.
Robots: their present-day use and prospects for the future. Filemon, Elisabeth. (146) p. 149-160, illus.
The Twenty-first century corporation. Smith, Roger B. (146) p. 177-182.
Robots
Robots: their present-day use and prospects for the future. Filemon, Elisabeth. (146) p. 149-160, illus.
The Third industrial revolution: an economic overview. Khan, Rahat Nabi. (146) p. 115-122.
Rural areas
Making use of the heat of the Sun. Moore, Howard J. (148) p. 317-329, illus.
SAGA: Sous-marin d'assistance à grande autonomie (France)
Submarine exploration and the tale of SAGA. Richardson, Jacques. (147) p. 277-286, illus.
Salinity
New and renewable sources of energy. (148) p. 301-411, illus., map.
Salinity energy. Schmitt, Walter R. (148) p. 393-402, illus.
Science and development
Inventions and the developing countries. Goonatilake, Susantha. (147) p. 223-231.
Inventions and the planned management of a national economy. Bělohlávek, Miroslav. (147) p. 241-250, illus.
Science policy
Inventions and the planned management of a national economy. Bělohlávek, Miroslav. (147) p. 241-250, illus.
Scientific discoveries
The Economic and legal dimensions of invention. Macioti, Manfredo. (147) p. 213-221.
Inventions and society. (147) p. 209-294, illus.
Inventions and the developing countries. Goonatilake, Susantha. (147) p. 223-231.
Scientific information systems
The Technical database: storage, recovery and utilization of industrial and engineering data. Blackburn, David A. (146) p. 123-131.
Scientific innovations
Inventions and society. (147) p. 209-294, illus.
Inventions and the developing countries. Goonatilake, Susantha. (147) p. 223-231.
Inventions and the planned management of a national economy. Bělohlávek, Miroslav. (147) p. 241-250, illus.
Inventions spurned: on bridges and the impact of society on technology. Petroski, Henry. (147) p. 251-259, illus.
The Socio-ethical dimension of invention. Bendzsel, Miklós. Kiss, István. (147) p. 233-240.
Submarine exploration and the tale of SAGA. Richardson, Jacques. (147) p. 277-286, illus.

Sea water temperature
Ocean thermal energy. Berkovsky, Boris M. (148) p. 387-392, illus.
Sediment transport
Continental growth and collision, and mineral prospection in Southeast Asia. Hutchison, Charles S. (145) p. 33-44, illus., maps.
Sedimentary rocks
Sedimentary basins, plate tectonics and oil fields. Sellwood, Bruce. (145) p. 45-53, illus., map.
Seismicity
Seismicity of Japan: earthquakes and tsunamis. Abe, Katsuyuki. (145) p. 63-74, illus., maps.
Social factors
Robots: their present-day use and prospects for the future. Filemon, Elisabeth. (146) p. 149-160, illus.
Sociology of science
Inventions and society. (147) p. 209-294, illus.
The Socio-ethical dimension of invention. Bendzsel, Miklós. Kiss, István. (147) p. 233-240.
Solar energy
Making use of the heat of the Sun. Moore, Howard J. (148) p. 317-329, illus.
New and renewable sources of energy. (148) p. 301-411, illus., map.
Solar electricity. Alferov, Zhores. (148) p. 331-336.
Solar heating
Making use of the heat of the Sun. Moore, Howard J. (148) p. 317-329, illus.
Solar radiation
Making use of the heat of the Sun. Moore, Howard J. (148) p. 317-329, illus.
Solar stills
Making use of the heat of the Sun. Moore, Howard J. (148) p. 317-329, illus.
Somalia
Wind energy: a maturing power supply possibility. Petersen, Erik Lundtang. Frandsen, Sten. Troen, Ib. Hansen, Jens Carsten. (148) p. 351-361, illus.
Sound recording
Music by proxy: the invention and evolution of mechanical music. Pearsall, Ronald. (147) p. 261-267, illus.
South East Asia
Continental growth and collision, and mineral prospection in Southeast Asia. Hutchison, Charles S. (145) p. 33-44, illus., maps.
Submarines
Submarine exploration and the tale of SAGA. Richardson, Jacques. (147) p. 277-286, illus.
Systems analysis
The Twenty-first century corporation. Smith, Roger B. (146) p. 177-182.
Technological change
The Engineer and the modern technological revolution. Boutzev, Christo. (146) p. 171-175, illus.
Inventions and the developing countries. Goonatilake, Susantha. (147) p. 223-231.
The Socio-ethical dimension of invention. Bendzsel, Miklós. Kiss, István. (147) p. 233-240.
Tectonics
Deep continental drilling on the Kola Peninsula and the structure of the earth's crust. Kuznetsov, Oleg L. (145) p. 89-96.
The Living planet: putting our knowledge of plate tectonics to work. (145) p. 1-103, illus., maps.
Plate tectonics: a framework for understanding our living planet. Achache, José. (145) p. 5-19, illus., maps.
Sedimentary basins, plate tectonics and oil fields. Sellwood, Bruce. (145) p. 45-53, illus., map.
Seismicity of Japan: earthquakes and tsunamis. Abe, Katsuyuki. (145) p. 63-74, illus., maps.
Volcanoes and men. Jaupart, Claude. (145) p. 55-61, illus., map.
Telecommunication
The Third industrial revolution: an economic overview. Khan, Rahat Nabi. (146) p. 115-122.
Television
The Influence of information technology on the economic and cultural life of Soviet Central Asia. Aïtmatov, Chinghiz Torekulovich. (146) p. 183-187.
Terrestrial heat
Heat flow of the earth and geothermal resources. Hamza, Valiya M. (145) p. 21-32, illus., map.
Thermal energy
New and renewable sources of energy. (148) p. 301-411, illus., map.
Ocean thermal energy. Berkovsky, Boris M. (148) p. 387-392, illus.
Tidal energy
New and renewable sources of energy. (148) p. 301-411, illus., map.
Tidal energy. (148) p. 375-385, illus.
Tower Bridge (UK)
Inventions spurned: on bridges and the impact of society on technology. Petroski, Henry. (147) p. 251-259, illus.
Transnational corporations
The Third industrial revolution: an economic overview. Khan, Rahat Nabi. (146) p. 115-122.
Tsunami
Seismicity of Japan: earthquakes and tsunamis. Abe, Katsuyuki. (145) p. 63-74, illus., maps.
UK
Inventions spurned: on bridges and the impact of society on technology. Petroski, Henry. (147) p. 251-259, illus.
Underwater technology
Inventions and society. (147) p. 209-294, illus.
Submarine exploration and the tale of SAGA. Richardson, Jacques. (147) p. 277-286, illus.
USSR
Deep continental drilling on the Kola Peninsula and the structure of the earth's crust. Kuznetsov, Oleg L. (145) p. 89-96.
The Influence of information technology on the economic and cultural life of Soviet Central Asia. Aïtmatov, Chinghiz Torekulovich. (146) p. 183-187.

Villages
Energizing an Indian village. Ghaswala, S.K. (148) p. 403-411, illus., map.
Vitamins
Research on palm oil. Parameswaran, Ponnudurai. (147) p. 287-294, illus.
VLSI: Very Large Scale Integration
Fifth-generation computer systems and their impact on society. Doi, Norihisa. Furukawa, Koichi. Fuchi, Kazuhiro. (146) p. 161-170, illus.
Volcanic eruptions
Volcanoes and men. Jaupart, Claude. (145) p. 55-61, illus., map.
Volcanoes
Volcanoes and men. Jaupart, Claude. (145) p. 55-61, illus., map.
Wind power
New and renewable sources of energy. (148) p. 301-411, illus., map.
Wind energy: a maturing power supply possibility. Petersen, Erik Lundtang. Frandsen, Sten. Troen, Ib. Hansen, Jens Carsten. (148) p. 351-361, illus.
Workers participation
Inventions and the planned management of a national economy. Bělohlávek, Miroslav. (147) p. 241-250, illus.

IMPACT OF SCIENCE ON SOCIETY, 1987

Author index

Abe, Katsuyuki
Seismicity of Japan: earthquakes and tsunamis. (145) p. 63-74, illus., maps.

Achache, José
Plate tectonics: a framework for understanding our living planet. (145) p. 5-19, illus., maps.

Aïtmatov, Chinghiz Torekulovich
The Influence of information technology on the economic and cultural life of Soviet Central Asia. (146) p. 183-187.

Alferov, Zhores
Solar electricity. (148) p. 331-336.

Aroro, H.L.
Energy from biomass. (148) p. 302-315.

Arya, Anand S.
Earthquake-proof construction and architecture. (145) p. 75-87, illus.

Bělohlávek, Miroslav
Inventions and the planned management of a national economy. (147) p. 241-250, illus.

Bendzsel, Miklós
The Socio-ethical dimension of invention. (147) p. 233-240.

Berkovsky, Boris M.
Ocean thermal energy. (148) p. 387-392, illus.

Blackburn, David A.
The Technical database: storage, recovery and utilization of industrial and engineering data. (146) p. 123-131.

Bloch, Georges
Will the 'piano' of the year 2000 be intelligent? Some reflections on computer music research. (147) p. 269-276.

Boutzev, Christo
The Engineer and the modern technological revolution. (146) p. 171-175, illus.

Carioca, J.O.B.
Energy from biomass. (148) p. 302-315.

Cataldi, Raffaele
World geothermal development: the present situation and opportunities for the future. (148) p. 337-350, illus.

Danzin, André
The Intergovernmental Informatics Programme. (146) p. 109-113.

DaSilva, Edgar J.
Energy from biomass. (148) p. 302-315.

Doi, Norihisa
Fifth-generation computer systems and their impact on society. (146) p. 161-170, illus.

Filemon, Elisabeth
Robots: their present-day use and prospects for the future. (146) p. 149-160, illus.

Frandsen, Sten
Wind energy: a maturing power supply possibility. (148) p. 351-361, illus.

Fuchi, Kazuhiro
Fifth-generation computer systems and their impact on society. (146) p. 161-170, illus.

Furukawa, Koichi
Fifth-generation computer systems and their impact on society. (146) p. 161-170, illus.

Gao Jizhang
Small hydropower in China. (148) p. 363-374, illus.

Ghaswala, S.K.
Energizing an Indian village. (148) p. 403-411, illus., map.

Goonatilake, Susantha
Inventions and the developing countries. (147) p. 223-231.

Hamza, Valiya M.
Heat flow of the earth and geothermal resources. (145) p. 21-32, illus., map.

Hansen, Jens Carsten
Wind energy: a maturing power supply possibility. (148) p. 351-361, illus.

Hutchison, Charles S.
Continental growth and collision, and mineral prospection in Southeast Asia. (145) p. 33-44, illus., maps.

Jaupart, Claude
Volcanoes and men. (145) p. 55-61, illus., map.

Khan, Rahat Nabi
The Third industrial revolution: an economic overview. (146) p. 115-122.

Kiss, István
The Socio-ethical dimension of invention. (147) p. 233-240.

Kuznetsov, Oleg L.
Deep continental drilling on the Kola Peninsula and the structure of the earth's crust. (145) p. 89-96.

Li Giufen
Small hydropower in China. (148) p. 363-374, illus.

Liu Fengqiao
The Growing influence of microelectronics and computer technology in China. (146) p. 189-192.

Macioti, Manfredo
The Economic and legal dimensions of invention. (147) p. 213-221.

Moore, Howard J.
Making use of the heat of the Sun. (148) p. 317-329, illus.

PannirSelvan, P.V.
Energy from biomass. (148) p. 302-315.
Parameswaran, Ponnudurai
Research on palm oil. (147) p. 287-294, illus.
Pearsall, Ronald
Music by proxy: the invention and evolution of mechanical music. (147) p. 261-267, illus.
Petersen, Erik Lundtang
Wind energy: a maturing power supply possibility. (148) p. 351-361, illus.
Petroski, Henry
Inventions spurned: on bridges and the impact of society on technology. (147) p. 251-259, illus.
Rebaglia, Bruno
Mechanics, electronics and computer science: their integration in manufacturing. (146) p. 139-147.
Richardson, Jacques
Submarine exploration and the tale of SAGA. (147) p. 277-286, illus.
Sartori, Sergio
Mechanics, electronics and computer science: their integration in manufacturing. (146) p. 139-147.
Schmitt, Walter R.
Salinity energy. (148) p. 393-402, illus.
Sellwood, Bruce
Sedimentary basins, plate tectonics and oil fields. (145) p. 45-53, illus., map.

Title index

Computer-aided design: a powerful tool at the disposal of the designer
Sequeira, Jean. (146) p. 133-138, illus.

Continental growth and collision, and mineral prospection in Southeast Asia
Hutchison, Charles S. (145) p. 33-44, illus., maps.

Deep continental drilling on the Kola Peninsula and the structure of the earth's crust
Kuznetsov, Oleg L. (145) p. 89-96.

Earthquake-proof construction and architecture
Arya, Anand S. (145) p. 75-87, illus.

The Economic and legal dimensions of invention
Macioti, Manfredo. (147) p. 213-221.

Education for an information age
Sendov, Blagovest. (146) p. 193-201, illus.

Energizing an Indian village
Ghaswala, S.K. (148) p. 403-411, illus., map.

Energy from biomass
DaSilva, Edgar J. Carioca, J.O.B. PannirSelvan, P.V. Aroro, H.L. (148) p. 302-315.

The Engineer and the modern technological revolution
Boutzev, Christo. (146) p. 171-175, illus.

Fifth-generation computer systems and their impact on society
Doi, Norihisa. Furukawa, Koichi. Fuchi, Kazuhiro. (146) p. 161-170, illus.

The Growing influence of microelectronics and computer technology in China
Liu Fengqiao. (146) p. 189-192.

Heat flow of the earth and geothermal resources
Hamza, Valiya M. (145) p. 21-32, illus., map.

The Influence of information technology on the economic and cultural life of Soviet Central Asia
Aïtmatov, Chinghiz Torekulovich. (146) p. 183-187.

The Intergovernmental Informatics Programme
Danzin, André. (146) p. 109-113.

Inventions and society
(147) p. 209-294, illus.

Inventions and the developing countries
Goonatilake, Susantha. (147) p. 223-231.

Inventions and the planned management of a national economy
Bělohlávek, Miroslav. (147) p. 241-250, illus.

Inventions spurned: on bridges and the impact of society on technology
Petroski, Henry. (147) p. 251-259, illus.

The Living planet: putting our knowledge of plate tectonics to work
(145) p. 1-103, illus., maps.

Making use of the heat of the Sun
Moore, Howard J. (148) p. 317-329, illus.

Mechanics, electronics and computer science: their integration in manufacturing
Rebaglia, Bruno. Sartori, Sergio. (146) p. 139-147.

Music by proxy: the invention and evolution of mechanical music
Pearsall, Ronald. (147) p. 261-267, illus.

New and renewable sources of energy
(148) p. 301-411, illus., map.

Ocean thermal energy
Berkovsky, Boris M. (148) p. 387-392, illus.

Plate tectonics: a framework for understanding our living planet
Achache, José. (145) p. 5-19, illus., maps.

Research on palm oil
Parameswaran, Ponnudurai. (147) p. 287-294, illus.
